

MADONA A

Chennai | 9087005759 | madona.augustin2002@gmail.com | LinkedIn: www.linkedin.com/in/madona2404

MCA graduate with hands-on experience in REST API testing, Postman, JSON validation, SQL, manual testing, defect reporting, and web application testing through internship and academic projects. Experienced in validating API responses, HTTP status codes, headers, response times, and JSON schemas using Postman and Newman. Strong foundation in Python, SQL, web technologies, and structured problem solving, with practical use of ChatGPT and Claude for AI-assisted test design, documentation, and QA analysis. Detail-oriented and curious, with strong technical communication and documentation skills.

SKILLS

- API & Web: REST APIs, HTTP Methods, HTTP Status Codes, JSON, Headers, Request/Response Validation, Authentication, Postman, Newman
- Testing: Manual Testing, Functional, Smoke, Sanity, Regression, Test Case Design, Test Scenarios, Defect Reporting, STLC, SDLC, Defect Life Cycle
- Data: SQL, MySQL, Data Validation, MS Excel
- Programming: Python, JavaScript, C
- Tools: Postman, Newman, Jira, Git, GitHub, ChatGPT, Claude AI, MS Office
- Web: HTML, CSS, JavaScript
- Strengths: Analytical Thinking, Attention to Detail, Problem Solving, Technical Documentation, Communication, Collaboration

EXPERIENCE

Manual Testing Intern | KO Innovation Pvt Ltd | Mar 2025 – May 2025

- Designed and executed manual test cases for the KO Fleetz application across functional, smoke, and regression scenarios.
- Identified and documented application defects with clear reproduction steps and collaborated with developers to validate fixes.
- Applied Agile QA practices throughout test execution, defect tracking, retesting, and regression validation.

Assistant Professor – CSE | Dhanalakshmi Srinivasan University | Aug 2025 – Aug 2026

- Developed technical learning materials, laboratory exercises, assignments, and documentation for computer science subjects.
- Simplified complex technical concepts into structured explanations and practical learning activities for students.
- Guided students in programming, debugging, logical reasoning, and problem-solving activities.
- Coordinated academic activities with faculty members to support smooth course and laboratory delivery.

PROJECTS

Online Auction Management System | Python, Django, MySQL, HTML, CSS, JavaScript

- Developed a web-based auction platform with user authentication, CRUD operations, and database integration.
- Implemented application functionality using Python/Django and strengthened understanding of web application and data flows.

E-Commerce API Testing | Postman, REST API, JSON, Newman

- Tested Login, Product, Cart, and Authentication REST APIs using Postman.
- Validated HTTP status codes, response payloads, headers, response times, and JSON structures.
- Executed positive, negative, and boundary test scenarios using Postman and Newman.

Flipkart Website Manual Testing

- Designed and executed test cases covering Login, Search, Cart, Wishlist, Product, and Checkout modules.
- Performed Functional, Smoke, and Regression Testing and reported defects with detailed reproduction steps.

EDUCATION

MASTER OF COMPUTER APPLICATION - 75% | Bishop Heber College, Trichy | 2022 - 2024

B.SC. MATHEMATICS - 73% | Holy Cross College, Trichy | 2019 - 2022

CERTIFICATIONS

Google – Crash Course on Python | NPTEL – Python for Data Science | Udemy – HTML & CSS | Udemy – MS Office Suite
